Executive Director

Division of Wildlife Resources

GREGORY SHEEHAN
Division Director

March 24, 2014

TO: Utah Wildlife Board/Regional RAC Members

FROM: Kenny Johnson
Administrative Services Section Chief

SUBJECT: Changes to Administrative Rule R657-45

The Division requests your consideration to the following changes to R657-45, Wildlife License, Permits, Certificates of Registrations. The division would like to be able to offer hunting, fishing, and combination licenses that stay valid for up to 5 years. We would also like to allow people to renew valid licenses within 6 months of expiration and not lose any field days. These proposals go hand in hand with a statute change we made in the 2014 legislative session UCA 23-19-7, 23-19-21 which allows more flexibility for the Wildlife Board to set license terms.

R657. Natural Resources, Wildlife Resources.

R657-45. Wildlife License, Permit, and Certificate of Registration Forms and Terms.

R657-45-1. Purpose and Authority.

Under authority of Sections 23-14-~~19 and~~18, 23-14-19, 23-19-2 and 23-19-7 the Wildlife Board has established this rule for prescribing the forms and terms of a [Wildlife License, Permit, and Certificate of Registration]wildlife license, permit, and certificate of registration.

R657-45-2. Information Listed on the License, Permit, and Certificate of Registration Forms.

(1) A [License]license, [Permit, and Certificate of Registration]permit, and certificate of registration issued for hunting or fishing shall be made upon forms and in the manner prescribed by the Wildlife Board.

(2) The [License]license, [Permit, and Certificate of Registration]permit, and certificate of registration forms shall include the licensee's customer identification number, name, date of birth, address, height, weight, eye color, hair color, gender, and any other information the Division of Wildlife Resources may request.

R657-45-3. License Terms and Renewal.

(1)(a) Upon paying the prescribed fee and satisfying the criteria for issuance, a person may obtain a resident or nonresident fishing, hunting, or combination license valid for:

- (i) 365 days (one year);
- (ii) 730 days (two years);
- (iii) 1095 days (three years);
- (iv) 1460 days (four years); or
- (v) 1825 days (five years).

(b) In addition to the license term prescribed in Subsection (1)(a), a person may obtain a:

- (i) three or seven day resident or nonresident fishing license; or
- (ii) three day nonresident hunting license.

(2) Multi-year fishing, hunting, and combination licenses under Subsection (1)(a) are available only at the resident and nonresident fee rates prescribed for adults, and not at the discount rates offered to youth, seniors, or veterans for 365 day licenses.

(3) A person with a current, one to five year hunting, fishing, or combination license may renew the license by purchasing:

- (a) a new license on or after its expiration date; or
- (b) the same license for a term prescribed in Subsection (1)(a) within six months of the expiration date on the unexpired license.

(i) A license renewed under Subsection (3)(b) is effective on the date of purchase and remains valid for a period equal to the sum of the remaining days on the unexpired license and the applicable term on the renewal license.

(4) Except as provided in Subsections (4)(a), a fishing, hunting, or combination license issued under this Section remains valid if the licensee subsequently changes residency during the term of license.

(a) A Utah resident license is invalid if a resident license for hunting, fishing, or trapping is purchased in any other state or country.

(5)(a) A resident that establishes a new domicile outside Utah during the unexpired term of a Utah resident fishing, hunting, or combination license, shall notify the Division of the change prior to purchasing a resident hunting, fishing, or trapping license in any other state or country.

(b) Upon receiving notice of a domicile change under Subsection (5)(a), the Division will issue a free nonresident replacement license for the remaining term of the resident license.

(c) The Division may charge a handling fee for a residency based license exchange under this Subsection.

(d) The pro rata difference between the nonresident and resident license fee will not be refunded to a person that establishes Utah residency during the term of a nonresident license.

(6) A person that purchases a hunting permit and subsequently changes residency may lawfully use that permit for the applicable hunting season without notifying the Division of residency change.

KEY: license, permit, certificate of registration

Date of Enactment or Last substantive Amendment: May 8, 2008

SUBJECT: Changes to Administrative Rule R657-67

The Division requests your consideration to the following change to R657-67, Utah Hunter Mentoring Program.

R657-67-4 – This division recommends removing the 10 business day requirement for the submission of an application prior to the desired hunting date. The division feels that applications can be processed in less time and that the 10 day requirement would prove to be more restrictive on the public wishing to participate than is needed.

R657. Natural Resources, Wildlife Resources.

R657-67. Utah Hunter Mentoring Program.

R657-67-1. Purpose and Authority. Under the authority of Utah Code Annotated Sections 23-14-1, 23-14-3, 23-14-18, 23-14-19, and 23-19-1, this rule creates a hunting mentor program that will increase hunting opportunities for Utah families and provides the procedures under which a minor child may share the permit of another to take big game, including all big game general season permits, big game limited entry permits, once-in-a-lifetime permits, and all antlerless big game permits.

R657-67-4. Administrative Process for Sharing Permits.

(1) The Hunting Mentor shall submit a complete application for participation in the mentor program [at least 10 business days before the requested effective date] and receive the Division's written authorization prior to sharing a permit.

(2) A complete application for the mentor program includes the following:

- (a) A handling fee as established by the Utah Legislature;
- (b) The Permit Number that is to be shared;
- (c) A physically identifying description of the Qualifying Minor;
- (d) The Qualifying Minor's hunter education number;
- (e) Written certification(s) of the following:

(i) That the Qualifying Minor is the child, stepchild, grandchild, or legal ward of the Hunting Mentor; or

(ii) That the Qualifying Minor has a life threatening medical condition; and the Hunting Mentor must also certify that they have received written authorization from the Qualifying Minor's parent or legal guardian approving their participation in the hunting activity; and

(f) any wildlife document(s) that must be surrendered in order to qualify for the Hunter Mentoring Program.

(3) If a Qualifying Minor must surrender a wildlife document in order to qualify for the Mentor Program, that surrender must be done prior to or at the time of their application to the Utah Hunter Mentoring Program as described in R657-67-6.

(4) If a Hunting Mentor wishes to change the Qualifying Minor with whom they share their permit, they must:

- (a) Surrender the authorization issued to the Qualifying Minor by the Division;
- (b) Reapply with the Division to have a new Qualifying Minor participate in the mentor program in the same manner as described in this Section.

SUBJECT: Changes to Administrative Rule R657-13

The Division requests your consideration to the following changes to R657-13, Taking Fish and Crayfish. The Division is recommending the removal of a second pole permit requirement and instead allowing the use of 2 poles to be included with a resident or nonresident season fishing or combination license beginning July 1, 2014.

R657. Natural Resources, Wildlife Resources.

R657-13. Taking Fish and Crayfish.

R657-13-1. Purpose and Authority.

(1) Under authority of Sections 23-14-18 and 23-14-19 of the Utah Code, the Wildlife Board has established this rule for taking fish and crayfish.

(2) Specific dates, areas, methods of take, requirements and other administrative details which may change annually and are pertinent are published in the proclamation of the Wildlife Board for taking fish and crayfish.

R657-13-2. Definitions.

(1) Terms used in this rule are defined in Section 23-13-2.

(2) In addition:

(a) "Aggregate" means the combined total of two or more species of fish or two or more size classes of fish which are covered by a limit distinction.

(b) "Angling" means fishing with a rod, pole, tipup, handline, or trollboard that has a single line with legal hooks, baits, or lures attached to it, and is held in the hands of, or within sight (not to exceed 100 feet) of, the person fishing.

(c)(i) "Artificial fly" means a fly made by the method known as fly tying.

(ii) "Artificial fly" does not mean a weighted jig, lure, spinner, attractor blade, or bait.

(d) "Artificial lure" means a device made of rubber, wood, metal, glass, fiber, feathers, hair, or plastic with a hook or hooks attached. Artificial lures, including artificial flies, do not include fish eggs or other chemically treated or processed natural baits or any natural or human-made food, or any lures that have been treated with a natural or artificial fish attractant or feeding stimulant.

(e) "Daily limit" means the maximum limit, in number or amount, of protected aquatic wildlife that one person may legally take during one day.

"Bait" means a digestible substance, including worms, cheese, salmon eggs, marshmallows, or manufactured baits including human-made items that are chemically treated with food stuffs, chemical fish attractants or feeding stimulants.

"Camp" means, for the purposes of this rule, any place providing temporary overnight accommodation for anglers including a camper, campground, tent, trailer, cabin, houseboat, boat, or hotel.

"Chumming" means dislodging or depositing in the water any substance not attached to a hook, line, or trap, which may attract fish.

(i) "Commercially prepared and chemically treated baitfish" means any fish species or fish parts which have been processed using a chemical or physical preservation technique other than freezing including irradiation, salting, cooking, or oiling and are marketed, sold or traded for financial gain as bait.

(j) "Dipnet" means a small bag net with a handle that is used to scoop fish or crayfish from the water.

(k) "Filleting" means the processing of fish for human consumption typically done by cutting away flesh from bones, skin, and body.

(l) "Fishing contest" means any organized event or gathering where anglers are awarded prizes, points or money for their catch.

(m) "Float tube" means an inflatable floating device less than 48 inches in any

dimension, capable of supporting one person.

(n) "Free Shafting" means to release a pointed shaft that is not tethered or attached by physical means to the diver in an attempt to take fish while engaged in underwater spearfishing.

(o) "Gaff" means a spear or hook, with or without a handle, used for holding or lifting fish.

(p) "Game fish" means Bonneville cisco; bluegill; bullhead; channel catfish; crappie; green sunfish; largemouth bass; northern pike; Sacramento perch; smallmouth bass; striped bass, trout (rainbow, albino, cutthroat, brown, golden, brook, lake/mackinaw, kokanee salmon, and grayling or any hybrid of the foregoing); tiger muskellunge; walleye; white bass; whitefish; wiper; and yellow perch.

(q) "Handline" means a piece of line held in the hand and not attached to a pole used for taking fish or crayfish.

(r) "Immediately Released" means that the fish should be quickly unhooked and released back into the water where caught. Fish that must be immediately released cannot be held on a stringer, or in a live well or any other container or restraining device.

(s) "Lake" means the standing water level existing at any time within a lake basin. Unless posted otherwise, a stream flowing inside or within the high water mark is not considered part of the lake.

(t) "Length measurement" means the greatest length between the tip of the head or snout and the tip of the caudal (tail) fin when the fin rays are squeezed together. Measurement is taken in a straight line and not over the curve of the body.

(u) "Liftnet" means a small net that is drawn vertically through the water column to take fish or crayfish.

(v) "Motor" means an electric or internal combustion engine.

(w) "Nongame fish" means species of fish not listed as game fish.

(x) "Possession limit" means, for purposes of this rule only, two daily limits, including fish at home, in a cooler, camper, tent, freezer, livewell or any other place of storage.

(y) "Protected aquatic wildlife" means, for purposes of this rule only, all species of fish, crustaceans, or amphibians.

(z) "Reservoir" means the standing water level existing at any time within a reservoir basin. Unless posted otherwise, a stream flowing inside or within the high water mark is not considered part of the reservoir.

~~(aa) "Second pole" means fishing with one additional rod, pole, tipup, handline, or trollboard that has a single line with legal hooks, bait, or lures attached to it and is held in the hands of, or within sight of the person fishing.~~ [(bb) "Seine" means a

small mesh net with a weighted line on the bottom and float line on the top that is drawn through the water. This type of net is used to enclose fish when its ends are brought together.

[(cc) "Setline" means a line anchored to a non-moving object and not attached to a fishing pole.

[(dd) "Single hook" means a hook or multiple hooks having a common shank.

[(ee) "Snagging" or "gaffing" means to take a fish in a manner that the fish does not take the hook voluntarily into its mouth.

([ff]ee) "Spear" means a long-shafted, sharply pointed, hand held instrument with or without barbs used to spear fish from above the surface of the water.

([gg]ff) "Tributary" means a stream flowing into a larger stream, lake, or reservoir.

([hh]gg)(i) "Trout" means species of the family Salmonidae, including rainbow, albino, cutthroat, brown, golden, brook, tiger, lake (mackinaw), splake, kokanee salmon, and grayling or any hybrid of the foregoing.

(ii) "Trout" does not include whitefish or Bonneville cisco.

(ii) "Underwater spearfishing" means fishing by a person swimming, snorkeling, or diving and using a mechanical device held in the hand, which uses a rubber band, spring, pneumatic power, or other device to propel a pointed shaft to take fish from under the surface of the water.

R657-13-5. Interstate Waters And Reciprocal Fishing Permits.

(1) Bear Lake

(a) The holder of a valid Utah or Idaho fishing or combination license may fish within~~[both the Utah and Idaho boundaries of]~~ Bear Lake ~~[with one fishing pole. With the purchase of a valid Utah fishing or combination license and a Utah second pole permit, or a valid Idaho fishing or combination license and an Idaho two pole permit, an angler]~~as follows:

(i) an individual may fish with up to two poles [anywhere]on the Utah portion of Bear Lake[that is open to fishing. A second pole or two pole permit must be purchased from the state of original license purchase.]; and

(ii) an individual must comply with Idaho regulations regarding fishing with more than one pole when fishing on the Idaho portion of Bear Lake.

(b) Only one daily limit may be taken in a single day even if licensed in both states.

(2) Reciprocal Fishing Permits

(a) The purchase of a reciprocal fishing permit allows a person to fish across state boundaries of interstate waters.

(b) Reciprocal fishing permits are offered for Lake Powell and Flaming Gorge Reservoir (See Subsections (3) and (4)[-]).

(c) Utah residents may obtain reciprocal fishing permits by contacting the state of Arizona for Lake Powell and the state of Wyoming for Flaming Gorge.

(d) Nonresidents may obtain reciprocal fishing permits through the division's web site, from online license agents and division offices.

(e) The reciprocal fishing permit must be:

(i) used in conjunction with a valid unexpired fishing or combination license from a reciprocating state; and

(ii) signed by the holder as the holder's name appears on the valid unexpired fishing or combination license from the reciprocating state.

(f) Reciprocal fishing permits are valid for 365 days from the date of purchase.

(g) Anglers are subject to the laws and rules of the state in which they are fishing.

(h) Only one daily limit may be taken in a single day even if licensed in both states.

(3) Lake Powell Reservoir

(a) Any person qualifying as an Arizona resident and having in their possession a valid resident Arizona fishing license and a Utah reciprocal fishing permit for Lake Powell can fish within the Utah boundaries of Lake Powell.

(b) Any person who is not a resident of Utah or Arizona must purchase the appropriate nonresident licenses for Utah and Arizona to fish both sides of Lake Powell.

(c) Any person possessing a valid Utah fishing license is permitted to fish anywhere on Lake Powell, including the Arizona portion of the reservoir.

(d) A person possessing a valid Arizona fishing license shall be required to purchase a valid Utah reciprocal permit to fish the Utah waters of Lake Powell.

(4) Flaming Gorge Reservoir

Any person possessing a valid Wyoming fishing license and a Utah reciprocal fishing permit for Flaming Gorge is permitted to fish within the Utah waters of Flaming Gorge Reservoir.

R657-13-6. Angling.

(1) While angling, the angler shall be within sight (not to exceed 100 feet) of the equipment being used at all times, except setlines.

(2) Angling with more than ~~[one line]~~two lines is unlawful, except:

(a) ~~[when using a valid second pole permit in conjunction with an unexpired Utah fishing or combination license;]while fishing for crayfish without the use of fish hooks as provided in R657-13-15; or~~

(b) while fishing ~~[for crayfish without the use of fish hooks;]through the ice at Flaming Gorge Reservoir as provided in R657-13-7.~~

~~[(c) while fishing through the ice at Flaming Gorge Reservoir. A second pole permit is not required when fishing through the ice at Flaming Gorge Reservoir, or when fishing for crayfish with lines without hooks.]~~

(3) No artificial lure may have more than three hooks.

(4) No line may have attached to it more than three baited hooks, three artificial flies, or three artificial lures, except for a setline.

(5) When angling through the ice, the hole may not exceed 12 inches across at the widest point, except at Bear Lake, Flaming Gorge Reservoir, and Fish Lake where specific limitations apply.

R657-13-7. Fishing With More than One Pole~~[-(Second Pole Permits)].~~

(1) A person may use ~~[a second pole]~~up to two fishing poles to take fish on all waters open to fishing, provided they ~~[have]~~possess an unexpired fishing or combination license~~[and a valid second pole permit]~~, except as provided in Subsection ~~[5]2~~ below.

~~(2)(a) A second pole permit may be obtained through the division's web site, from license agents and division offices.]~~

~~[(b)(i) A second pole permit is a 365 day permit valid only when used in conjunction with an unexpired Utah fishing or combination license.]~~

~~[(b)(ii) A second pole permit does not allow an angler to take more than one daily limit or to possess more than one possession limit.]~~

~~(3) Anglers under 12 years of age must purchase a valid fishing or combination license and second pole permit in order to use a second pole.]~~

~~[(4) A second pole permit shall only be used by the person to whom the second pole permit was issued.]~~ (5) A person may use up to six lines ~~[without a second pole permit]~~ when fishing at Flaming Gorge Reservoir through the ice. When using more than ~~[two lines]~~ one line at Flaming Gorge Reservoir, the angler's name shall be attached to each line, pole, or tip-up, and the angler shall check only their lines.

(3) Regardless of the number of poles or lines used, an angler may not take more than one daily limit or possess more than one possession limit.

(4) When fishing on waters located within another state, a person must abide by that state's regulations regarding fishing with more than one pole.

R657-13-8. Setline Fishing.

(1) A person may use a setline to take fish only in the Bear River proper downstream from the Idaho state line, including Cutler Reservoir and outlet canals; Little Bear River below Valley View Highway (SR-30); Malad River; and Utah Lake.

~~(2)(a) Angling with one pole is permitted while setline fishing, except as provided in Subsection (b).~~ ~~[(b)]~~ (b) A person ~~[who obtains a second pole permit may fish with]~~ may use up to two [poles]lines for angling while setline fishing.

(3) No more than one setline per angler may be used and it may not contain more than 15 hooks.

(4)(a) A setline permit may be obtained through the division's web site, from license agents and division offices.

(b) A setline permit is required in addition to any valid Utah fishing or combination license.

(c) A setline permit is a 365 day permit valid only when used in conjunction with any unexpired Utah fishing or combination license.

(5) When fishing with a setline, the angler shall be within 100 yards of the surface or bank of the water being fished.

(6) A setline shall have one end attached to a nonmoving object, not attached to a fishing pole, and shall have attached a legible tag with the name, address, and setline permit number of the angler.

(7) Anglers under 12 years of age must purchase a valid Utah one day, seven day or annual fishing or combination license and setline permit in order to use a setline.

R657-13-15. Taking Crayfish.

(1) A person possessing a valid Utah fishing or combination license may take crayfish for personal, noncommercial purposes during the open fishing season set for the given body of water.

(2) Crayfish may be taken by hand or with a trap, pole, liftnet, dipnet, handline, or seine, provided that:

(a) game fish or their parts, or any substance unlawful for angling, is not used for bait;

(b) seines shall not exceed 10 feet in length or width;

(c) no more than five lines are used, and no more than ~~[one line]~~ two lines may have hooks attached, ~~[-- except when an angler possesses a valid second pole permit in which case two hooked lines may be used].~~ On unhooked lines, bait is tied to the line so that the crayfish grasps the bait with its claw; and

(d) live crayfish are not transported from the body of water where taken.

March 24, 2014

TO: Utah Wildlife Board/Regional RAC Members

FROM: Jordan Nielson
AIS Coordinator

SUBJECT: Changes to Administrative Rule R657-60

The Division requests your consideration to the following change to R657-60, Aquatic Invasive Species Interdiction

R657-60-13 –In order to interdict the spread of *Dreissena* mussels consistent with Utah Code Title 23, Chapter 27 “Aquatic Invasive Species Act” the Division recommends the establishment of inspection stations consistent with 23-27-301. The rule amendment outlines the proposed process for conducting an inspection station.

R657. Natural Resources, Wildlife Resources.

R657-60. Aquatic Invasive Species Interdiction.

R657-60-1. Purpose and Authority.

(1) The purpose of this rule is to define procedures and regulations designed to prevent and control the spread of aquatic invasive species within the State of Utah.

(2) This rule is promulgated pursuant to authority granted to the Wildlife Board in Sections 23-27-401, 23-14-18, and 23-14-19.

R657-60-13. Inspection Stations.

(1) Inspection stations may be established for administrative purposes to interdict the spread of Dreissena mussels consistent with Utah Code Title 23, Chapter 27 “Aquatic Invasive Species Act,” and this rule.

(2) The Division may establish inspection stations at locations authorized under Section 23-27-301 where:

(a) there is a high probability of intercepting conveyances or equipment transporting Dreissena mussels;

(b) there is typically a high level of boat and trailer traffic; or

(c) inspection of conveyances or equipment will provide increased protection against the introduction of Dreissena mussels into a water body that is not classified as infested, suspected, or detected under R657-60-2.

(3) Inspection stations shall have adequate space for conveyances or equipment to be stopped, inspected, and if necessary, decontaminated, without interfering with the public’s use of highways or presenting a safety risk to the public.

(4) Inspection stations shall have adequate signage providing the public:

(a) notice that the inspection station is open and operational;

(b) notice that all persons transporting conveyances or equipment must stop at the inspection station and submit their conveyance and equipment for inspection; and

(c) an adequate opportunity to safely stop at the inspection station.

(5) Any person transporting a conveyance or equipment is required to stop at an inspection station during its hours of operation and submit that conveyance or equipment to the Division for inspection.

(6) The Division shall conduct an inspection of a conveyance or equipment that is stopped at an inspection station as follows:

(a) Division personnel will determine whether the conveyance or equipment has been in an infested, suspected, or detected water body within the past 30 days.

(b) If the conveyance or equipment has not been in an infested, suspected, or detected water body within the past 30 days, the Division will:

(i) conduct a brief visual inspection of the conveyance or equipment to ensure that there are no visible Dreissena mussels;

(ii) provide educational materials regarding aquatic invasive species risks and regulations in Utah; and

(iii) provide a certificate of inspection to the person in possession of the conveyance or equipment.

(c) If the conveyance or equipment has been in an infested, suspected, or detected water body within the past 30 days, the Division will:

(i) verify all water is drained from the conveyance or equipment, including water held in ballast tanks, bilges, livewells, motors, and other areas of containment;

(ii) verify that the surface of the conveyance or equipment is free of Dreissena mussels, shelled organisms, fish, plants, and mud; and

(iii) verify that the conveyance or equipment has been or will be decontaminated as defined in R657-60-2(b) before launching in a Utah water body.

(d) The Division may require professional decontamination of conveyances or equipment that have been in an infested, suspected, or detected water within the past 30 days and failed to comply with the draining and cleaning requirements established in R657-60-5(3).

(7) The Division may issue a certification of inspection and decontamination to persons who complete inspections and any applicable decontamination at an inspection station.

(8) Inspection stations shall be operated in a manner that minimizes the length of time of an inspection while ensuring that conveyances are free from the presence of Dreissena mussels.

MEMORANDUM

Date: April 3, 2014
To: Utah Wildlife Board / Regional Advisory Council Members
From: Justin Shannon, Big Game Coordinator
SUBJECT: Overview of 2014 Big Game Permits Recommendations

The attached tables summarize the Utah Division of Wildlife Resources recommended general season, limited entry, and antlerless permit allocations for the 2014 big game hunts. These recommendations are based upon evaluation of information from the 2013 harvests and post-hunting season herd composition classifications. The number of permits proposed for 2014 should help achieve or maintain desired objectives for harvest size, trophy quality, and hunting opportunity under Utah's big game management plans.

Highlights:

- 1) For general season deer hunting, we manage 16 units with a post season buck to doe ratio objective of 18–20 and 14 units with an objective of 15–17. We are recommending permit decreases on 6 units, no changes on 17 units, and permit increases on 7 units. Statewide, we are recommending 84,800 general season permits, which is a 200 permit increase compared to last year.
- 2) For premium limited entry units, we recommend an increase of 3 draw permits on the Henry Mountains Unit (3-year average of 72% of bucks 5 years or older) and 9 draw permits on the Paunsaugunt (3-year average of 64% of bucks 5 years or older). The statewide management plan calls for a permit increase if more than 55% of harvested bucks are 5 years or older.
- 3) We recommend an increase of 5 draw management buck permits on the Henry Mountains (3-year average is 56 bucks per 100 does post-season), and a decrease of 8 draw management buck permits on the Paunsaugunt (3-year average is 44 bucks per 100 does post season). The statewide plan allows for an increase in permits if buck to doe ratios exceed 50 per 100.
- 4) We recommend a slight decrease in limited entry deer permits from 827 to 811.
- 5) We recommend no change to the any bull and spike elk permits.
- 6) We recommend an increase in limited entry bull elk permits from 2,742 to 2,842.
- 7) We recommend a decrease in buck pronghorn permits from 841 to 781.
- 8) We recommend a reduction in moose permits due to declining ages of bulls from 71 to 67.
- 9) We recommend increasing bison permits on the Book Cliffs hunts from 6 to 10 draw permits.
- 10) We recommend decreasing bison permits on the Henry Mountains from 98 to 74 draw permits.
- 11) We recommend a slight decrease in Rocky Mountain bighorn sheep permits from 40 to 38 and a slight increase in desert bighorn sheep permits from 37 to 40.
- 12) We recommend a decrease in mountain goat permits from 162 to 108.

April 3, 2014

Subject: Letter of Admonishment

- 13) Due to the light winter in 2013-2014, deer populations have again increased in many management units. The statewide, post-hunt population estimate is about 332,900 deer.
- 14) We are recommending an increase in antlerless deer permits in 2014, from 305 to 410 permits. Almost all of our antlerless deer permits are designed to address depredation on private lands. The only exception is on the Panguitch Lake Unit where we are recommending 150 antlerless permits to deal with habitat damage on rangeland. No new antlerless deer hunts are being proposed.
- 15) Elk populations are above management objectives on several units, and antlerless permits are needed to reduce elk numbers on those units. Antlerless permits are also needed to slow the growth of elk numbers on units that are approaching management objectives. We are recommending 16,715 public antlerless elk permits in 2014, compared to 17,817 in 2013.
- 16) We are recommending changes to 14 antlerless elk hunts, unit names, or boundaries descriptions.
- 17) We are recommending that hunters who have any antlered big game permit can also purchase an antlerless elk control permit valid on 12 units:
 - 3 elk units where the population objective is 0 elk.
 - Henry Mountains
 - North San Rafael
 - San Juan, East of US-191 and South of US-491
 - 9 units where we struggle to harvest enough antlerless elk to reach the population objective.
 - Nine Mile Range Creek
 - South Slope Yellowstone
 - Chalk Creek
 - East Canyon
 - Morgan South Rich
 - Wasatch Currant Creek and Avintaquin (boundary change)
 - Wasatch West (new this year)
 - Ogden (new this year)
- 18) We recommend a decrease in doe pronghorn permits 962 to 669.
- 19) We recommend changes to 3 doe pronghorn hunts, unit names, or boundary descriptions.
- 20) We recommend no public antlerless moose permits in 2014 as many of the moose populations in Utah are stable or slightly declining.

MEMORANDUM

Date: March 21, 2014

To: Utah Wildlife Board / Regional Advisory Council Members

From: Scott McFarlane, Private Lands / Public Wildlife Coordinator

SUBJECT: SUMMARY OF 2014 CWMU ANTLERLESS RECOMMENDATIONS

The attached table lists the Division of Wildlife's 2014 recommendations for CWMU big game antlerless vouchers and permits. Antlerless voucher/permit numbers have been previously approved for 42 CWMU's on 3-year management plans. Nine CWMUs are requesting changes to previously approved numbers. Another 9 new or renewed CWMU's require Wildlife Board approval.

The antlerless voucher/permit summary is as follows:

DEER		ELK		PRONGHORN	
<u>Private</u>	<u>Public</u>	<u>Private</u>	<u>Public</u>	<u>Private</u>	<u>Public</u>
0	10(2-doe)	238	1090	74	124

A recommended total of 1,536 CWMU antlerless permits are recommended for 2014, of which 79.7% will be public permits available through the drawing process.
